## How to use this product:

At the beginning of the month give each child a copy of the spelling menu. This menu consists of several Spelling activities, each with its own point value, for the students to choose from. The activities vary from month to month. The students will keep the menu for the entire month. Ideally, each student will complete a different Spelling activity every evening. This will give them daily practice, as well as, plenty of time to complete the activities. The number of points that the student completes will be their Spelling Homework grade for the week.

I personally keep the maximum number of points at 100. Activities with misspelled words or incomplete word does not count for full credit. The spelling menu clearly lists how the menu should be completed and how the homework should be labeled.
